As Sereviere investigation has estabpossible to apply a remedy. In tracing out the causes of loss of power in the steam engine, the first and greatest element doubtless resides in the difficulty-we may be vised, and for the following reasons :

ble is lost by falling through the grate bars in the form of dust or partially burned fragments that find their way into the ash unutilized.

Again, in no form of furnace that has yet been devised, has it been found possible tion generated in the furnace long enough high as 800 degrees.

ing a ad waste of heating power.

which prust be highly heated before it will begin to combine with the combustible elements of the fuel, and which must necessarily alastract this heat from the glowing room, was entirely destroyed, as was also the item of loss is often a serious one where McNulty. The house on the opposite corner there is careless stoking and the furnace of Reock street, owned by Peter O'Toole, was doors are frequently opened, permitting uproofed and badly damaged by water. Fairgreat volumes of cold air to rnsh into th

engine.

Summing up all the items of loss in the steam generator it is probable that with the hest boiler which it is has been possible to construct, not more than fifty per cent. of the thermal effect of the fuel is utilized in the generation of steam, and of this fifty per cent, from fifteen to thirty per cent, is lest comewhere during the passage of the steam from the boiler to and through that theory demands we should have.

It seems somewhat absurb in the face of \$1,700 in London Assurance, about \$3,000 loss. the e facts to see and hear statements to Fairchild & Todd, 33,200 insurance, loss about the elect that the possibilities of improve. \$10,000. The total loss by the fire is about ment in the duty of the steam engine have \$25,000, and the insurance less than half that been exhausted. Our inventors need not sum. tuzz's their brains concerning new moters to long as they have a margin of seventythe engine. - The Milling World.

Necessitating a Surgical Operation-

Loving Mother Attempts to take Pair of Shears from Her Child.

PARENTS, BE CAREFUL.

some of them are very serious. Mrs. Warner, of South Rondout, Ulster Co., N. Y., some weeks ago attempted to take from her child a pair of shears at that f millions in 1878. The figures for | with which it was playing. A slight struggle ensued in which the point of the shears entered Mrs. Warner's left eye, entirely destroying the sight. Her family physician did what he could, but intensely painful inflammation arose, which, by sympathy, threatened the loss of the other eye. Total blindness to a woman having the care of a household is an irretrievable calamity. In this strait Mrs. W. applied to the well-known, and skillful Surgeon Dr. David Kennedy, of Rondout, N. Y., who removed the injured eye by a very successful operation, setting aside all danger of further

harm to the sight of the other eye. But, owing to pain and mental distress, her system needed a

tonic and restorative medicine. To do this work

the Dector prescribed "Kennedy's Favorite Rem-

edy." which sustained its reputation and laid a sure foundation of health. Dr. Kennedy's "Favorite Remery" re noves all impurities from the Blood, regulates the Liver and Kidneys, cures constipation, and all diseases and weaknesses peculiar to Females. It is for sale by all our druggists at ONE DOLLAR a TAX SALE .- BLOOMFIELD TOWNSHIP.

Notice is hereby given that by virtue of a Tax Warrant, to me given by the Township Committee of the Township of Bloomfield in the County of Essex and State of New Jersey, dated July 6th, 1881, commanding me to make the taxes in arrears for the year 1879, with interest, cost, fees, charges and expenses, out of the real estate, I will expose

Tuesday, the Sixteenth day of August, next, at 2 o'clock, p.m., at my office in Library Hall, in Bloomfield, to such person or persons as the taxes thereon for the year 1879, with interest eest and fees, charges and expenses assessed and charged against the same, the following described
